

DIDSBURY PIONEER

VOL. XII

DIDSBURY, ALBERTA, WEDNESDAY, MAY 20th, 1914.

No. 20

WHEN IN DOUBT, WHAT?
WHEN YOU ASK FOR **PEABODY'S OVERALLS**. IF YOUR LOCAL DEALER SAYS HE HAS "SOMETHING JUST AS GOOD" COMPARE THEM. NOTE THE FIT, MATERIAL, WORKMANSHIP, AND YARDAGE; NUMBER OF POCKETS OF THE OVERALLS, ALSO ON THE COATS NOTE THE GAUNTLET CUFF, AND THE UNIFORM BAND COLLAR, AND THEN IF THE "JUST AS GOOD" GARMENT STANDS THE COMPARISON, BUY IT BY ALL MEANS. BUT MARK YOU, THEY WON'T STAND A CAREFUL COMPARISON.

WE ARE THE AGENTS FOR PEABODY'S GUARANTEED OVERALLS.

J. V. BERSCHT
THE DOLLAR SAVING STORE

FREE \$25 Cash Given Away

UNION BANK OF CANADA

A Strong, Far-reaching Organization

This local office of the Union Bank of Canada is but one of over 310 Branches of an organization whose Total Assets exceed \$80,000,000. Our banking service covers Canada, and through our connections we are prepared to transact business in any part of the civilized world.

The confidence of Canadians in this Bank is attested by over Sixty-four Million Dollars of Deposits. Yours would make a wise and welcome addition.

DIDSBURY BRANCH

T. W. Cuncannon, Manager
Carstairs Branch—W. A. Stewart, Mgr.

AROUND THE TOWN

Ed. Shenfield, road inspector, of Bowden, was a visitor in town on Monday.

Mrs. E. E. Frulling and children of Olds, were visiting with Mr. and Mrs. B. A. St. Clair over the week end.

The Ladies Exchange will be held at Mr. Studer's store on Saturday, May 23rd. Sale to commence at 3 o'clock.

Mrs. T. W. Lloyd, mother of F. T. Lloyd, formerly of Northampton, Australia, arrived from Vancouver, on Monday night, and is staying with Mrs. Brules.

Mrs. J. E. Wamsley will take boarders at \$5.00 per week in advance. Located just across the road from R. Morrison's residence in Andrew Weber's house.

Mr. and Mrs. C. W. Franklin left for Richdale on Tuesday where they will make their home for the future. Mr. Franklin will go into the contracting business.

Next Monday will be observed as a holiday as the 24th of May comes on Sunday this year. All stores will be closed on that day and the post office will be open for a short time after the arrival of trains.

R. W. Cole, the ledger keeper at the local branch of the Union Bank, has been transferred to the Calgary branch for a short time. L. C. Swann of Calgary, is taking the place of Mr. Cole at the Bank.

The Didsbury Citizens Band will be unable to give an open air concert on May 25th as several of their members will take advantage of the holiday to visit other towns, but they will commence the concerts shortly after the holiday.

Principal Reid of the Didsbury High School was taken ill with inflammatory rheumatism on Friday last and is now confined to the house. His son, Ed. Reid, B. A., is taking his father's place at the school for a few days. It is to be sincerely hoped that Principal Reid will soon recover.

Alf. Smith and W. R. Vogel spent a couple of days at Calgary this week, looking over the oil craze and took several snapshots of the crowded streets round the oil offices which will be shown at Vogel's studio. Alf. says everybody is crazy, and it's "oh you oil" everywhere.

Rev. C. G. Kaatz and family are visiting friends in the district and Mr. Kaatz took part in the services at the Evangelical church on Sunday evening at which a large audience was present. Mr. Kaatz has been moved to the Regina church for which place he expects to leave shortly.

There are a lot of strangers coming into town on the oil stock selling mission. It would be wise for you to go a little easy in transactions with these people because you cannot be sure that they are bona fide selling agents and it would be very easy to get away with your loose change if you have any.

A meeting of the local branch of the U.F.A. is called for Tues-

J. M. HYSMITH

day afternoon next at 2.30 o'clock. The manager of the Olds Farmers Co-operative Limited is expected to be present and address the meeting. All farmers are invited to be present and address the meeting. All farmers are invited to attend this meeting.

Come to the Lecture that will be given in the Baptist Church, on Thursday night at 8 o'clock, by the Rev. W. G. Asher. Subject: "Is there a God?" Among the topics discussed will be "Where did God come from?" Evolution-Origin of Matter, of Force, Life, Etc.-Supremacy of the Spiritual, Etc. Admission free. All welcome.

Arrangements have been made by the M B C. church to hold their annual camp meeting in Didsbury from June 19th to 29th. It is expected that the meetings will be fully as interesting as in former years and that there will also be as good an attendance of local as well as outside speakers. All information in regard to the Camp meeting can be obtained from Rev. D. S. Shantz, the chairman, Didsbury.

The Alberta Temperance and Moral Reform League has decided upon June 15th as Field Day for Temperance in the Didsbury electorate. Rev. J. M. Fulton, Field Secretary of the League will be in Didsbury and will hold special services on that day. Also Mr. Fulton will conduct a Temperance Conference in Didsbury on June 16. Look for particulars concerning these special events in next week's issue.

G. E. Rice Opens Office

Like all other towns anywhere near the Calgary radius Didsbury now has a representative on the Calgary Oil market in the person of Mr. G. E. Rice who has opened up an office for the purchase and selling of oil stocks in G. B. Sexsmith's office, opposite the Pioneer office on Osler street. Mr. Rice is well known in Didsbury, having been here for some months in connection with flour mill matters, and intending dealers in oil stocks will do well to consult him before buying elsewhere. He is in touch with the best companies now floated and has direct connection with the Calgary Oil Exchange. He will carefully protect his clients interests.

You cannot afford brain-boggling headaches.

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

Dr. Morse's
Indian Root Pills

W. N. U. 999

Hoarse?
Denny—What is that rasping sound?
Benny—That's Grey filing a complaint.

Oil for Toothache—There is no pain so acute and distressing as toothache. When you have so unwelcome a visitor apply Dr. Thomas' Electric Oil according to directions and you will find immediate relief. It touches the nerve with soothing effect and the pain departs at once. That it will ease toothache is another fine quality of this Oil, showing the many uses it has.

Parent—What is your reason for wishing to marry my daughter.
Young Man—I have no reason, sir; I am in love.

Minard's Liniment Cures Dandruff.

A Pankhurst Home of the Future
Christabel Pankhurst has an idea that the home of the future, when women get the vote and have the upper hand, will be a kitchenless home. There will be no cooking to be done, no dish washing. Families will get their meals at restaurants and the women will be free to attend to the public duties which demand their attention. The idea is quite popular among women of a certain type.

A Sure Corrective of Flatulency—When the undigested food lies in the stomach it throws off gases causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive and the only way to prevent them is to restore the stomach to proper action. Parmelee's Vegetable Pills will do this. Simple directions go with each packet and a course of them taken systematically is certain to effect a cure.

No Place Like Home
Teacher—When the prodigal son returned, Tommy, what did his father do?
Bright Boy—He nearly killed the fat calf.

SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at
This Season

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

No Time For Riddles
Excitable party at telephone—Hello! Who is this? Who is this, I say?

A BRONCHIAL COUGH, PERHAPS WEAK THROAT USE "CATARRHOZONE"—DEAD SURE CURE

Wonderful Success Reported in
Thousands of Bad Cases

How many thousands are there who would gladly pay any sum to be cured of bronchitis or catarrh. Many could be cured if they would just use common sense in selecting their remedy.

Bronchitis of course is an inflammation of the bronchial tubes which were made for the passage of air alone, and neither the moisture of an atomizer nor the liquid of a cough syrup can get where the trouble really is. The diseased parts can only be reached by a remedy that can force its way through all the breathing organs. Doctors who have used "Catarrhozone" say it is the only rational cure for bronchitis. It cures by inhibition.

You breathe in its healing balsams, inhale its soothing antiseptic vapor and relief is immediate.

Simple to use, delightful and pleasant—nothing compares with Catarrhozone which is the cure of the day for all bronchial and throat troubles. Mr. H. B. McCaughan, the well-known representative of Parks and Blackwell, Toronto, says: "I have used Catarrhozone for years and can honestly say it is the only remedy that relieves me from a painful attack of Bronchial Catarrh. The inhaler for Catarrhozone is always in my pocket and I simply couldn't get along without it. I firmly believe Catarrhozone is a wonderful remedy."

Large size sufficient for two months' use, guaranteed, \$1.00; small size, 50c; sample or trial size 25c. Sold by dealers everywhere.

Chick Chat

Dust the setting hens and keep them
free from lice at all times.

Protect the chicks against chilling
when transferring them to the brooder
or coop. Have your brooder clean,
disinfected and heated before trans-
ferring the chicks from the incubator
to the brooder. Use chaff for litter in
the brooder. Never use damp or
musty litter.

Teach the chicks that under the
hover is their source of heat supply.
A little patience in this matter will
save many from sickness or death
through chilling. If chicks huddle to-
gether the brooder is too cold, if they
scatter to the corners it is too hot.

Hatch your chicks in April or early
May if you want winter layers. Keep
them growing continuously, as while
you are growing your chicks you are
growing your eggs.

Remember that unsanitary or damp
conditions breed lice and disease. Dis-
infect the brooder or coop occasionally,
and clean out the brooder or coop of-
ten and renew the chaff.

Hard boiled eggs may be fed occas-
ionally, but should be mixed with
other foods or fed sparingly.

If chicks droop their wings or appear
to be sickly look for head lice. Head
lice burrow into the head of the chick
and can be killed by an application of
equal parts of lard and sulphur.

Give chick grit for first feed. It is
advisable to feed commercial chick
food for the first two weeks. Where
commercial chick food is not used feed
stale bread crumbs, rolled oats, or
granulated oat meal.

A wet mash of skim milk and oats
may be fed to advantage occasionally
by way of variety. Always feed clean
wholesome food.

THE WINDOW AT THE WHITE CAT

By Mary Roberts Rinehart

(Copyright)

(Continued)

"Delirious," shortly. "She's going to croak, Wardrop's going to Mexico, Schwartz will be next governor, and Miss Mahland's body will be found in a cistern. The whole thing has petered out. What's the use of finding the murderer if he's coated with asbestos and lined with money? Mike, I want some more tea to drown my troubles."

We called up the hospital about 10:30 and learned that Mrs. Butler was sinking. Fred was there and, without much hope of getting anything, we went over. I took Burton in as a nephew of the dying woman, and I was glad I had done it. She was quite conscious, but very weak. She told the story to Fred and myself, and in a corner Burton took it down in shorthand. We got here to sign it about daylight sometime, and she died very quietly shortly after Edith arrived at 8.

To give her story as she gave it would be impossible. The ramblings of a sick mind, the terrible pathos of it all, is impossible to repeat. She lay there, her long, thin body practically dead, fighting the death rattle in her throat. There were pauses when for five minutes she would lie in a stupor, only to rouse and go forward from the very word where she had stopped.

She began with her married life, and to understand the beauty of it is to understand the things that came after. She was perfectly, ideally, illogically happy. Then one day Henry Butler accepted the nomination for state treasurer, and with that things changed. During his term in office he altered greatly; his wife could only guess that things were wrong, for he refused to talk.

The crash came, after all, with terrible suddenness. There had been an all night conference at the Butler home, and Mr. Butler, in a frenzy at finding himself a dupe, had called the

HAND WOULD CRACK WITH SALT RHEUM

Pained and Burned, Hard and Sore Lumps. Couldn't Rest or Sleep. Finger Swollen. Cuticura Soap and Ointment Cured.

Legere Corner, N. B.—"I had salt rheum on my hand for a good many years. Every winter my hand would crack and part of the time I had to wear a glove to do my work, for when I washed in hot water with it unwrapped it used to irritate so much that I didn't know what to do. I had to take a rough towel and rub it until the blood would come sometimes. Many a night I had to sit up in bed and rub them and sometimes that didn't satisfy. I had to scratch with my fingers and the next morning I would find a big piece of skin which I had taken off. This winter I had sores on one of my hands. I thought they were ulcers. They pained and burned. They started just like a little lump and would be hard and sore and after that there would be a big bunch of pus and when that would be out it would leave an opening almost as big as half a five-cent piece. I couldn't rest or sleep with the pain and the burning sensation. The ulcer I had on my finger this winter was still worse. There was more inflammation for my finger was swollen almost twice its natural size and was just as red as a piece of saffron."

"I took the Cuticura Soap and made a poultice with it and washed the hand with a piece of cotton and after it was washed I used to take the Cuticura Ointment and spread it on a piece of cotton and wrap the hand with it. I was cured in a little over a week." (Signed) Mrs. Charlie Surette, June 5, 1913. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

W. N. 999

butler from bed and forcibly ejected Fleming and Schwartz from the house. Ellen Butler had her horrid, sickened by what she regarded as the vulgarity of the occurrence. But her loyalty to her husband never wavered.

Butler was one honest man against a complete organization of unscrupulous ones. His disgrace, imprisonment and suicide at the White Cat had followed in rapid succession. With his death, all that was worth while in his wife died. Her health was destroyed; she became one of the wretched army of neurasthenics, with only one idea: to retaliate, to pay back in measure full and running over, her wrecked life, her dead husband, her grief and her shame.

She laid her plans with the caution and absolute recklessness of a diseased mentality. Normally a shrinking, nervous woman, she became cold, passionless, deliberate in her revenge. To disgrace Schwartz and Fleming was her original intention. But she could not get the papers.

She resorted to hounding Fleming, meaning to drive him to suicide. And she chose a method that had more nearly driven him to madness. Wherever he turned he found the figures eleven twenty-two C, sometimes just the number without the letter. It had been Henry Butler's cell number during his imprisonment, and if they were graven on his wife's soul they burned themselves in lines of fire on Fleming's brain. For over a year she pursued this course—sometimes through the mail, at other times in the most unexpected places, wherever she could bribe a messenger to carry the paper. Sane? No, hardly sane, but inevitable as fate.

The time came when other things went badly with Fleming, as I had already heard from Wardrop. He fled to the White Cat, and for a week Ellen Butler hunted him vainly. She had decided to kill him, and on the night Margery Fleming had found the paper on the pillow she had been in the house. She was not the only intruder in the house that night. Some one, presumably Fleming himself—had been there before her. She found a ladies' desk broken open and a small drawer empty. Evidently Fleming, unable to draw a check while in hiding, had needed ready money. As to the jewels that had been disturbed in Margery's boudoir, I could only surmise the impulse that after prompting to take them had failed at the sight of his dead wife's jewels. Surprised by the girl's appearance, she had crept to the upper floor and concealed herself in an empty bedroom. It had been almost dawn before she got out. No doubt this was the room belonging to the butler, Carter, which Margery had reported as locked that night.

She took a key from the door of a side entrance and locked the door behind her when she left. Within a couple of nights she had learned that Wardrop was coming home from Plattsburg, and she met him at Bellwood. We already knew the nature of that meeting. She drove back to town, half maddened by her failure to secure the letters that would have cleared her husband's memory, but the wiser by one thing: Wardrop had inadvertently told her where Fleming was hiding.

The next night she went to the White Cat and tried to get in. She knew from her husband of the secret staircase, for many a political meeting of the deepest significance had been possible by its use. But the door was locked, and she had no key.

Above her the warehouse raised its empty height, and it was not long before she decided to see what she could learn from its upper windows. She went in at the gate and felt her way, through the rain, to the windows. At that moment the gate opened suddenly and a man muttered something in the darkness. The shock was terrible.

I had no idea that night of what my innocent stumbling into the warehouse yard had meant to a half crazed woman just beyond my range of vision. After a little she got her courage again, and she pried open an unlocked window.

The rest of her progress must have been much as ours had been a few nights later. She found a window that commanded the club, and with three possibilities that she would lose and would see the wrong room, she won the fourth. The room lay directly before her, distinct in every outline, with Fleming seated at the table, facing her and sorting some papers.

She rested her revolver on the sill and took absolutely deliberate aim. Her hands were cold, and she even rubbed them together to make them steady. Then she fired, and a crash of thunder at the very instant covered the sound.

Fleming sat for a moment before he swayed forward. On that instant she realized that there was some one else in the room—a man who took an uncertain step or two forward into view, threw up his hands and disappeared as silently as he had come. It was Schwartz. Then she saw the door in the hall open, saw Wardrop come slowly in and close it, watched his sickening realization of what had occurred, then a sudden panic seized her. Arms seemed to stretch out from the darkness behind her, to draw her into it. She tried to get away, to run, even to scream—then she fainted. It was gray dawn when she recovered her senses and got back to the hotel room she had taken under an assumed name.

By night she was quieter. She read the news of Fleming's death in the papers, and she glowed over it. But there was more to be done; she was only beginning. She meant to ruin

Schwartz, to kill his credit, to tell him with the club of public disfavor. Wardrop had told her that her husband's letters were with other papers at the Monmouth avenue house, where he could not get them.

Fleming's body was taken home that day, Saturday, but she had gone too far to stop. She wanted the papers before Lightfoot could get at them and destroy the incriminating ones. That night she got into the Fleming house, using the key she had taken. She ransacked the library, finding not the letters that Wardrop had said were there, but others equally or more incriminating, cancelled notes, private accounts that would have ruined Schwartz forever.

It was then that I saw the light and went downstairs. My unlucky stumble gave her warning enough to turn out the light. For the rest, the chase through the back hall, the dining room and the pantry had culminated in her escape up the back stairs, while I had fallen down the dumb waiter shaft. She had run into Bella on the upper floor—Bella, who had almost fainted and who knew her and kept her until morning, petting her and soothing her and finally getting her into a troubled sleep.

(To be Continued)

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

"May I print a kiss upon your lips?"

"Yes, provided you promise not to publish it."

Warts on the hands is a disfigurement that troubles many ladies. Follow-up's Corn Cure will remove the blemishes without pain.

Everbake—Say, lend me another five. You know, what's been done once can be done again.

Gottitt—I can't.

Shiloh
The family remedy for Coughs and Colds. Small dose. Small bottle. Best since 1870.

Willie Guesses it
Teacher—What will your father do when he sees this report card?
Willie—When he sees I'm zero he'll give me a warmin'.

Minard's Liniment Relieves Neuralgia.

At the Club
Jinks—We're trying to raise the janitor's salary. What will I put you down for?
Blinks—A lobster, I s'pose. I'll give \$10.

There is a certain old German, Wilkes-Barre, Pa., whose pride, like that of many self-made men, leads him at times into a sort of patronizing condescension toward those things he did not "have time for" when he was making his way in life. Upon the occasion of the graduation of a nephew he asked "Vel, Wilhelm, vot did they teach you up there?"

"Greek and Latin," said the boy, "and German and algebra."

"So, so," murmured the old German, "And vot's der algebra for potatoes now?"—Youth's Companion.

NEW LIFE
Found in Change to Right Food

After one suffers for months from acid dyspepsia, sour stomach, and then finds the remedy is in getting the right kind of food, it is something to speak about.

An eastern lady and her young son had such an experience and she wants others to know how to get relief. She writes:

"For about fifteen months my little boy and myself had suffered with sour stomach. We were unable to retain much of anything we ate.

"After suffering in this way for so long I decided to consult a specialist in stomach diseases. Instead of prescribing drugs, he put us both on Grape-Nuts and we began to improve immediately.

"It was the key to a new life. I found we had been eating too much heavy food which we could not digest. In a few weeks after commencing Grape-Nuts, I was able to do my house work. I wake in the morning with a clear head and feel rested and have no sour stomach. My boy sleeps well and wakes with a laugh.

"We have regained our lost weight and continue to eat Grape-Nuts for both the morning and evening meals. We are well and happy and owe it to Grape-Nuts."

Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellville" in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

Blended to Suit Hard Water

Hard water spoils most teas but not Red Rose. It is distinctive in this respect, being specially selected and blended to suit the hard water of the Prairie Provinces. No matter how hard the water it cannot destroy the rich strength and flavor of Red Rose Tea. This is one of the main reasons, perhaps, why Red Rose is such a favorite.

In 1 lb. and ½ lb. lead packages at 40c., 50c. and 60c.—also in tins of 3 lbs. and larger.

N.B.—Coffee users will find Red Rose Coffee as generously good as Red Rose Tea. 422

To the Woman Who Realizes She Needs Help

You are nervous. You have "crying spells." You are dejected. You don't sleep well. You have backache. You have lost ambition for your work. You are beginning to feel old and look old.

These symptoms, more than likely, are produced by some weakness or derangement.

Dr. Pierce's Favorite Prescription
(In Tablet or Liquid Form)

will aid you in regaining youthful health and strength—just as it has been doing for over forty years for women who have been in the same condition of health you now find yourself. It soothes and invigorates. It rebuilds and upholds.

Your medicine dealer will supply you in tablet or liquid form, or send you one-cent stamps for trial box. Address Dr. V. M. Pierce, Boston, U. S. A.

Dr. Pierce's Pleasant Pellets regulate Stomach, Bowels and Blood. Easy to take.

CANADIANIZING THE FOREIGNER IN WEST

CITY OF CALGARY MAKES GOOD CITIZENS OUT OF THE NEW-COMERS

Civic Undertaking of Calgary in Teaching the Foreign Element of its Population, is Meeting With Marked Success—One Way to Make Good Canadian Citizens.

(By Charles Stokes)

The assimilation of the foreigner is one of the most interesting aspects of Canadian immigration. Canada receives an enormous immigration, of which approximately 25 per cent. is drawn from non-English speaking countries, and the mere attraction of these people to her shores is not the completion of her responsibilities. The advertising of Canada as a land of opportunity for all is not sufficient; there must be a hospitable welcome and a readiness to accept the newcomer, whatever nationality he represents and whatever tongue he speaks, as a man and a brother. Of his own part, the foreigner is generally in fullest sympathy with any attempt to absorb him into the social, moral and political atmosphere of the Dominion. But he comes from countries where vastly different systems of government have been in vogue; and to set the impress of Canadian ideals upon the heterogeneous mass of which he is a unit, it is sometimes necessary to reduce the foreigner, adult though he may be, to practically the status of a child and to start right from the beginning again. The principal obstacle to overcome is his ignorance of English. Once that is removed, he is not only enabled to make a better living, but can be taught the principles of citizenship.

An object lesson in the successful Canadianization of the foreigner was afforded the writer at the closing exercises of the special classes for foreigners conducted by the Calgary school board. Calgary may be called the metropolis of the westernmost prairies, situated as it is a considerable distance from any other big centre in Western Canada, and because of the twenty-two hundred odd miles that stretch between it and the Atlantic seaboard, it does not receive very much immigration of the rather objectionable kind that is to be found in some eastern cities, but mostly of the progressive and educated type that is part of the march of civilization. Its foreign-born newcomers belong not to the black hand but the Universal Association of Workers. But despite the fact that the average is possessed of an education that might be called fairly good, a very great proportion cannot speak English; and it was to help these persons, male and female, that these classes were instituted three years ago.

I believe I am correct in stating that such classes, although now becoming common, were never taken up as a civic duty instead of a philanthropic task until Calgary entered the field. At some point, English classes for foreigners had been started as part of religious schemes, but never apparently by any city itself. The classes (which are held at night and are intended for adults, not children) are conducted by the city of Calgary as a branch of its very liberal policy of technical education, and for administrative purposes come under the direction of the superintendent of technical education, Mr. T. B. Kidner. At the beginning of the first season, two classes were held; now there are eleven classes, with nine instructors, the attendance at which during the season just closed was no less than 407.

The classes are in five groups—firstly, for beginners, consisting of those who have been in the country under six months; secondly, for intermediate students, who have been in the country less than one year; third and fourth, advanced students; and lastly, a mixed class of students at various stages. The system used in imparting instruction is the "Berlitz," which, besides being very suitable for any person of even meagre education, is almost indispensable (lacking the use of Esperanto or some such universal medium of converse) in communicating with students of so many nationalities as this—Scandinavians, Slavs, Teutons, Latins, and so forth. In the Berlitz system, no other language is used but that which is being taught, and no translation is undertaken by the instructor. The speaking of English is the first effort and then successively reading and writing. In the intermediate group, interesting debates have been held and the keenest interest has been manifested in the discussion of such topics as prohibition, women's suffrage and the advantage or disadvantages of city life as compared with country life. That French, Dutch, German, Danish, Swedish and Austrians can be brought to such perfection that they can argue on controversial matters in a language which until a few months before had been unknown to all of them is, incidentally, a great achievement. In the advanced groups of the classes, a book on civics has been studied, and the students have acquired an introduction to a knowledge of the government of the city, the province of Alberta, the Dominion of Canada, and the British empire; until, as one student volunteered, from being unacquainted with English they had in a year been advanced

to being able to read newspapers and to take interest in all political issues, from the tariff question to the local market problem.

The closing exercises were attended by a large number of people—the students themselves, the friends they had brought with them and who, not having attended the classes, sat goggle-eyed throughout the whole performance and the very commonplace English-speaking folks who came out of curiosity. Represented in the hall were (besides Canadians, British and Americans), Norwegians, Swedes, Danish, Dutch, Greeks, Italians, Austrians, Poles, Galicians, Ruthenians, and even one very beaming Chinaman. One of the classes had also amongst its members, an Eskimo from Northern Siberia. The presentation of prizes—dictionaries for the most proficient, copies of Marsh's "Story of Canada" for every student—which was possible by the generosity of the Calgary Canadian club, was after all the least important event. The most notable part was the programme performed by the students themselves—recitations, songs, speeches and papers. The excellence that was shown in every effort was perhaps the most convincing proof of the success attained.

RETAIN FREEDOM

Germany's Vexed Question in East Africa Under Review

A white paper dealing with the vexed question of "serfdom" in German East Africa has been drawn up by the governor of the protectorate in reply to a Reichstag resolution on desiring the abolition of serfdom by January 1, 1920. It has been the subject of much criticism in the budget committee from Socialist and Centre party deputies. It says that it would be a highly dangerous experiment to abolish the serfdom by a fixed date. The colonial secretary, Dr. Solf, fully agreed with this view, and was supported by the National Liberals. The resolution is extremely unlikely to take effect.

According to the German law, every native born after December, 1905, is free. The mild "serfdom" now existing in East Africa is a survival of tribal warfare and of the Arab conquests. In the days of the prosperous slave trade centred in Zanzibar the prisoners of war were sold to dealers and carried out of the country, but now that the trade has languished with the establishment of European rule the serfs remain and work in the country until they can purchase their freedom.

There are estimated to be at present about 185,000 serfs in German East Africa. Their numbers are rapidly dwindling and in fifteen years' time "serfdom" will, it is estimated, be extinct.

Results at Experimental Farms

For twenty-six years the Dominion Experimental farms have been experimenting with grain crops at the various farms and stations distributed over Canada, trying to learn which varieties give best results in the different provinces. Not only have the best known sorts produced at other places been grown side by side, but at the Central farm at Ottawa new varieties have been bred, and when found desirable, perpetuated and distributed to growers.

For the information of the Canadian farmer the more important results of the season of 1913 at the different farms have been put together in summarized form and issued in Bulletin No. 4. There are included in this some recommendations as to varieties to grow, and method of production to follow that should prove of great service to growers in all parts of Canada.

Referring to "Marquis" wheat which was bred at Ottawa, the bulletin says, "Marquis produces very large crops, has usually good straw, and is more resistant to rust than most of the common varieties." A large edition of this bulletin has been printed so that all who desire copies may secure them by applying to the Publications branch, Department of Agriculture at Ottawa.

Mathematical Genius at Cambridge

Cambridge is about to receive a model student. He is Mr. Ramanujam, an Indian mathematical genius, discovered by the Indian government.

Ramanujam, although a genius, lacks training and most of his solutions are reached by a flash of inspiration. He cannot demonstrate scientifically how he obtained them.

He will not read for a degree, as his general education is said to be weak, and it is desired that he should devote all his time to the development of his wonderful gifts. He will enter the university as an advanced student, and remain there for two years.

Limit Bag of Wild Ducks to 200 Birds

To limit the bag of wild ducks in one season to 200 birds was the decision arrived at by the fish and game committee of the Ontario legislature in regard to the bill of Dr. Anderson (South Essex), who sought to limit the number to 100. At the same time, Hon. J. O. Reame, who presided, said he would apply to the federal government to prohibit the export of wild fowl out of the province. Dr. Anderson declared the intention of his bill was to stop pothunters who go in for the wholesale slaughter of the wild duck on the St. Clair flats and at Rondeau park on Lake Erie.

INES TO BE BUILT DURING PRESENT YEAR

THE CONSTRUCTION PROGRAM OF THREE TRANSCONTINENTAL RAILWAYS

Work Mapped Out Shows That Many Miles of New Branch Lines Will be Constructed—Many Miles of New Territory to be Served

This year's program of railway construction work in Manitoba, Alberta and Saskatchewan has now been definitely decided on. The Canadian Pacific Railway grading is being done on the 15 mile extension of the Moose Jaw southwest branch beyond Expanse. Steel will be laid on this in 1914. The C.P.R. are now calling for tenders for the grading of 25 miles which is a further extension of the line from Sterling East, which when completed will mean that the road projects 75 miles east from Sterling, Sask., and within 41 miles of the Weyburn west line. Steel however, may not be laid this year. This is the C.P.R.'s second alternative route from Winnipeg to Vancouver via the Crow's Nest Pass and the Kettle Valley route. The C.P.R. will do grading operations as follows: 72 miles on the Monitor-Kerr-robust line, 25 miles Suffield south westerly; 87 miles on the line running west of Weyburn, 25 miles on a line running north westerly from Coronation and 126 miles on the line from Bassano easterly. The total lines under construction in Alberta is 206, in Saskatchewan River extending from and laying steel on the Expanse line, 15 miles.

Grand Trunk Pacific—The G.T.P. operations will be largely confined to the branch into Prince Albert from Young, Sask., and the track laying on the Brandon branch in Manitoba. The main line in British Columbia will be completed.

Canadian Northern Railway—Construction work will be done on the Peace River line from Onoway on the main line north westerly. There is also a line on the north side of the Saskatchewan river extending from Oliver to meet the branch running west from North Battleford. Work will be in progress on the Calgary-Leithbridge branch and on the Elrose to Alaskan branch and Gravelburg-Swift Current line. There is also the extension of the Thunder Hill branch and the branch from Wroxton to Yorkton.

CROSS ATLANTIC IN 15 HOURS

Aviators Dream of Making Trip in Luxurious Aerial Pullman

The expressed opinion of Mr. Claude Grahame White that in twenty years it will be possible to cross the Atlantic in fifteen hours, travelling in a luxurious aerial Pullman with dining and sleeping facilities, has been endorsed by several well-known aviators.

Mr. C. B. Hucks, the first Englishman to loop the loop, however, goes so far as to prophesy that this milestone of progress in aeronautics would be passed within two years from now. He pointed out, in an interview, that a speed of 140 miles an hour had already been attained and recently a German aviator succeeded in remaining in the air for over sixteen hours, and that a flight when sixteen persons were taken up was recently reported from St. Petersburg.

"Crossing the Atlantic," said Mr. Hucks, "will be exactly like looping the loop. First one man will do it, then perhaps some months will elapse before an attempt is made by a second man, and when the second man has been successful others will see that the feat is not the accomplishment of just one man, and a whole procession will follow."

American Wants Seat Among Lords

There is more than a probability that the question whether Lord Fairfax, as an American citizen, is debarred from sitting in the house of lords, will have to be decided shortly.

Lord Fairfax already more than once has been a candidate for one of the seats allotted in the house of lords to peers of Scotland, and is again to be a candidate at the next election, which cannot be long delayed.

On this occasion he likely will be successful in taking the late Earl of Leven's seat, but Fairfax's election will not decide the question as to whether he is eligible to take his seat, although it will force the matter to an issue.

Imported Their Church

A Ruthenian church, said to be the first church of its type on the American continent, was dedicated recently in Toronto by Bishop Budka of Winnipeg. The building which is of basilica type, dating back to the fifth century, was imported from Galicia. The total cost is about \$40,000. Austrians and Poles form the membership of the church.

Japanese Prince For Oxford

To the ever-growing number of Oriental royalties who have been educated at Oxford or Cambridge or recent years will shortly have to be added the most interesting figure. This is the crown prince of Japan, who is to be sent to Oxford after the summer vacation. There are already two sons of the King of Siam at Oxford.

COAST DEFENCE TRAINS

French Have Designed Moveable Forts for Protection of Long Coast Line

An entire coast-defence battery mounted on railway trucks is the answer of French military authorities to the question of how to secure positive defense over long coast lines with economy. The advantages claimed for these mobile batteries are the economy in the preparation for the defence of any place, as the batteries on wheels cost less than permanent fixed batteries and can be sent to threatened points from places where they are not needed, the only expense being for laying the rails. Then, too, no coast-defence plans can be sold to the enemy, no photographs, or drawings stolen, for no permanent works indicate where the salient points of this defence are located. No special roads need be laid, for military railways can be used in time of peace for commercial purposes, and in war time, peaceful roads utilized for war purposes. The guns so far manufactured for this work are of howitzer pattern, and in 7.87-in., 6-in., and 4.7-in. sizes. They are protected by turrets, and the ammunition cars are armored. An interesting feature of one car used in the French manoeuvres is an observation tower extending some 40 feet above the rail tops.

Suez Canal Deepen

Announcement has just been made that the deepening of the Suez canal has been completed, and the waterway now has a depth of 29 feet for its entire length. Originally it was planned to give the canal a depth of 26 1/2 feet, and for years after it was completed this depth was maintained. Increase in the size of vessels routed through this short cut to the Orient made it necessary to deepen the cut, and dredging operations conducted in the early eighties added one foot to the depth. Six years ago the new finished undertaking was begun, and throughout the 100 miles of navigation from Port Said to Suez, dredges have removed silt and sand, deepening the waterway to 29 feet. Already proposals are being considered for a further dredging, which will make the minimum depth thirty feet. The Panama canal, while but fifty miles long, cost nearly \$300,000,000, as compared with the Suez expenditure of \$96,500,000 for twice the distance. The Panama canal, however, is 49 feet deep and 300 feet wide, while its eastern rival is considerably narrower, only 200 to 265 feet in width, and is a sea-level excavation mainly through sand.

REMOUNTS FOR WAR PURPOSES

New Scheme For Ranch on Land North of Medicine Hat

Hon. Colonel Sam Hughes has been empowered by the government to lease to the National Livestock Exchange, Limited, townships 20, 21 and 22, range 3, west of fourth Meridian, comprising 65,000 acres of the land lying sixty miles north of Medicine Hat and south of the Red Deer river, for the purpose of collecting and providing thereon half-bred cavalry remounts. The company will pay an annual rental of two cents per acre for the land. The terms of this lease are that the company shall produce half-bred dams remounts to the number of not less than 1,500 each year after 1916. The government of Canada is to have the horses raised by the exchange and the company must hold and mature until the age of three and a half years all horses which the minister of militia may desire for military purposes. The price to be paid by the minister is not to exceed the substantial sum of \$250 per head.

It is further agreed that the war office of Great Britain may have pre-emption rights at the same price and terms in respect to such horses as remain after the minister has made his choice. The exchange must have the right, however, to retain fifty filly and fifty colts each year for breeding purposes.

Colonel Hughes submits that the lease will be in the interest of the public, as it is desired that every encouragement should be given for the production of horses for war purposes.

GOVERNMENT TO ACT

Saskatchewan Department Will be Selling Agents for Wool Growers

The Saskatchewan department of agriculture announces that during the present season it will act as a selling agency for wool-growers of the province. Shipments of wool may be made in carload lots, must be forwarded to Regina during June, and the commodity will be placed on the market free of charge to the farmer, who will, however, have to meet all expenses incidental to the shipment, local freight rates, and also grading. Among the deductions will be the cost of twine and sacks.

The department has decided to embark on this new policy in order to demonstrate the advantages to be derived from the production of the choicest quality of wool and from the marketing of wool in bulk, and also to encourage sheep-growing among grain farmers. During the winter months an exhaustive inquiry was instituted into the condition of the sheep industry, and it was discovered that there are in the province 600 owners of flocks ranging in size from one or two to ten thousand head.

A bulletin on the new policy will be sent to every wool-grower in the province.

PLANNING FOR A CANADIAN HIGHWAY

AN INTERPROVINCIAL HIGHWAY FROM THE ATLANTIC TO THE PACIFIC COAST

Scheme is Now Well Launched and is Receiving Considerable Attention by Various Associations East and West Throughout the Dominion.

An inter-provincial highway, running from the Atlantic to the Pacific coast, is a scheme that is receiving considerable attention at the present time. Various associations have been organized with a view to bringing about the construction of this route, and its ultimate success now seems certain. This scheme was first mooted three or four years ago, and the possibilities were shown by the trip undertaken by H. J. Wilby. The outcome of the agitation in favor of this scheme was the organization of what has become known as the Dominion Highways Association. This organization has gone to considerable expense in order to educate the people of Canada to the immense value of such an inter-provincial route.

As with all big schemes, public opinion moves but slowly, and where the scheme deserves merit, it usually gets it—it is only a question of time. The early endeavors of the Dominion Highways Association and various other bodies did not readily succeed, but the weight of their arguments is now being felt. Motorists especially are acknowledging the merits of the proposal, and this fact was no more clearly shown than when the Saskatchewan Motor League recently organized at Regina, took up as one of its first subjects, the proposal to have an inter-provincial highway. The scheme was readily endorsed, and the views of this new league, which is representative of Saskatchewan, will be placed before the provincial government. There seems little doubt but that the Saskatchewan government will deal with the matter at its next session at Regina, as well as other provincial governments. The federal government already has the matter in hand.

The scheme in general provides for a road from coast to coast, travelling as near as possible in a straight line. It is not intended to have any wide deviations in order to pass through any particular city, the idea being to build roads from the various cities within reasonable distance to the inter-provincial road.

The various motor leagues of Canada will co-operate with the leagues in the United States, as it will likely be necessary for the route to run south into the States before reaching Lake Superior, and again cross into Canada either at Detroit or Port Huron, from there continuing as direct a line as possible to the eastern terminus on the Atlantic coast. The route followed by Mr. Wilby in his pioneer trip required that he ship his automobile from Sault Ste. Marie to Fort William, and from there continue by road.

The Saskatchewan end of the scheme was fully discussed at the recent Motor League convention at Regina. One feature which has now been definitely decided is that the provincial government, the city of Regina and the city of Moose Jaw will co-operate in putting the highway between Regina and Moose Jaw in first class condition, and it is understood other municipalities will also co-operate with the provincial government in improving the inter-provincial road throughout Saskatchewan. It is claimed that the tourist traffic over the road would be considerable.

The Saskatchewan portion of the inter-provincial road will probably be a continuation of the road which the Dominion government have under consideration. From the eastern boundary of the province to Swift Current the road is already in fairly good condition, considerable work having been done on it by both the municipal and provincial authorities. Repairs will have to be made at a few points in the eastern section of the road. This road in a general way will parallel the main line of the Canadian Pacific Railway. The road between Regina and Moose Jaw will be considerably improved, as stated above, by the provincial government, and the cities of Regina and Moose Jaw.

From Swift Current to the Alberta boundary the road as outlined, is only problematical, as a great deal of work and expense will be involved in putting it in good condition.

Not only is it expected that the motor tourists will use this inter-provincial road to a considerable extent, but it is expected that truck farming will also be encouraged.

40,000 FEET PER DAY

Quebec Board of Film Censors Are Kept Busy

Since it was inaugurated May 1st last year, the Quebec board of censors has examined over 2,000 miles of moving picture films, or enough to stretch across the country. An average length of film of about 40,000 feet is passed, rejected or purged of objectionable features every day. Only half the number of pictures condemned a year ago are banned now, showing an improvement in standard. Returns of approved and censored films are now exchanged with other Canadian boards of censor, who reciprocate with their returns.

H. D. BOOKER

TO THE FRONT WITH

Painting and Paperhanging

ALL JOBS DONE RIGHT, AND AT RIGHT PRICES

ESTIMATES CHEERFULLY AND FREELY GIVEN

GOPHER BOUNTY

The Rural Municipality of Mountain View will pay the following bounty for the destruction of Gophers within the municipality by any method whatsoever:-

1½ CENTS EACH UP TO MAY 15TH, 1914

1 CENT EACH BETWEEN MAY 15TH AND JULY 15TH, 1914

The council will not furnish poison this year.

Those who wish to obtain the bounty must produce the whole tail of each gopher to the following councillors or overseers:-

Geo. Metz	H. McLean	O. W. Hembling
M. McLean	H. E. Pearson	J. W. Bridge
J. G. Dougherty	A. A. Dyck	W. Rupp
C. J. Dickau	Harry Gibson	Chas. Deadrich
T. E. Smith	H. Moritz	F. Putzke
W. Ashton	C. Hutton	H. B. Hengstler
J. W. Francis	B. Rosebargo	Sam Cummins
Abe Smalley	D. McCuen	W. E. Flinn
C. O. Herron	Percy Saunders	T. B. Sippson

Those who wish to obtain the 1½ cent bounty must produce the gopher tails to any of the above men not later than the 16th day of May.

BY ORDER OF THE COUNCIL,

J. E. STAUFFER, Secretary.

S-W Inside Floor Paint

S-W Family Paint

S-W Kopal

It is wonderful what a little money spent in paint, and a little time in applying it, will do in the way of improvement around your home.

Worn floors can be made to look bright and fresh—dingy furniture made as good as new—cupboards and shelves made clean and sanitary—dull woodwork and doors, bright and clean—and the walls instead of being covered with faded, dust-collecting wall paper or streaky and shabby kalsomine, can be made artistic and sanitary. Here are the special Sherwin-Williams products that will do all this for you at small expense.

For your floors use S-W Inside Floor Paint for a durable painted finish, or S-W Floorlac for an attractive finish imitating all the popular hardwoods such as Oak, Mahogany, etc.

Refinish your furniture with a coat of S-W Varnish Stain, a combination of a permanent pigment stain and a durable varnish, which renews the old furniture in such colors as Mahogany, Oak, Rosewood, Walnut, etc. S-W Floorlac can also be used for the same purpose.

Cupboards, shelves, painted baseboards, doors, and wainscoting can all be finished handily with S-W Family Paint, a durable oil paint made in twenty-one attractive colors, easy to keep clean.

The best finish for walls is Sherwin-Williams Flat-tone, a durable oil paint that dries with a soft, velvety flat effect. It is made in 24 colors that are the choice of expert decorators. It is very durable and will last for years and can be washed with soap and water, without injury.

Council Meeting

The Council met in regular session on Monday night in the Council chambers. Councillors Moyle, Chambers, Reed, Sinclair, Solicitor Patterson and Clerk St. Clair present. Mayor or Atkins, Councillors Osmond and Stark absent.

In the absence of the Mayor Councillor Chambers was acting Mayor.

Bills amounting to \$268.67 were ordered paid.

A bill from H. Roeth for hauling gravel was ordered filed.

Councillors Moyle and Sinclair that services of J. Tynor as night watchman be discontinued.—Carried.

Mr. Reed and Mr. G. B. Sexsmith interviewed the Council for the Curling Club Ltd. for a grant of \$50 for the free skating provided during the past season for the children.

Councillors Moyle and Reed that the town vote the Curling Club Ltd. the sum of \$50 as a grant for the season of 1913-14. Carried.

Geo. Hong Foo asked the Council to remove the sidewalk off Lot 10, Block 1, to allow him to build.

Councillors Moyle and Sinclair moved that the petition be granted and that a committee of H. W. Chambers and J. M. Reed see owners of scales about removal of same.

The Council then adjourned.

D. Stands for—Several Things

"What is the meaning of that big 'D' on the dustbin?" asked the new servant.

The haughty footman replied:

"Damsel, the 'D' displayed on the dustbin denotes that the despairing domestics of this detached domicile desire that the deserving dustmen during their daily diversions will deem it their delightful duty to dislodge deliberately and deftly the dirt and dust deposited in that disagreeable dustbin.

Farewell Service

On Sunday last the afternoon service at the Evangelical church took the form of a farewell service by Rev. J. S. Daum.

The spacious church was well filled with appreciative listeners, extra seats having been placed in the aisles to accommodate the many friends.

Rev. and Mrs. Daum after a successful pastorate of three years have made many fast friends who deeply regret their removal to the city of Edmonton, where Mr. Daum has been given a charge and where, accompanied by the good wishes of their many friends, they will take up residence and their new work at the end of this month.

Mr. and Mrs. Daum will leave for Calgary on Saturday morning where they will spend several days prior to going to their new home in Edmonton.

The home of Mr. and Mrs. E. C. Webster was the scene of a very pleasant gathering last Thursday evening when the friends of Rev. and Mrs. J. S. Daum gathered to bid them God-speed.

After a helpful prayer and praise service a pleasant time was spent in singing and a delicious lunch was served.

While the company were still seated the class leader, Mr. Ralph Elmer, made an address appreciative of the helpfulness of the Pastor and his wife during their stay here, presented him with a beautiful cut glass and silver engraved vase.

This coming as a complete surprise they were quite overcome, but Mr. Daum responded with a short address after which the company joined hands and sang "Blest be the tie that binds." The company broke up with many heart felt farewells.

W.C.T.U. Gathering

On Tuesday afternoon of last week a well attended meeting was held in the Evangelical church by the W. C. T. U.

Mrs. Aylesworth of Olds addressed the gathering on "Equal Suffrage for Women" and "Scientific Temperance Instruction in the schools", after which immediate action was taken to deal practically with both these departments of work.

At the close of other business transactions and the acceptance of the retiring President's resignation, an appreciative address in reference to Mrs. Daum's untiring efforts as President of this organization, was ably delivered by Mrs. LeBlanc accompanied by the presentation of a beautiful cut glass tea service by Mrs. J. R. Good.

Mrs. Daum under deep feeling and thankfulness replied by expressing regret at her disconnection with W. C. T. U. friends and closed by wishing the Union much of prosperity and God's blessing. Mrs. Garner was then appointed to act as President and Mrs. Burgess to assist her during the balance of this convention year.

You are not Forgotten

You are not forgotten mother

Though I wander far away

Memory brings your face before me

Honor bids the image stay.

When I watch the lingering twilight

Slowly die at eventide,

I can almost hear you speaking

See you standing by my side,

Though my heart is hot and restless

As a creature of the wild,

Though the moaning pine-trees call me

As a mother calls her child,

Somewhere in the secret chamber

In that sweetly sacred place,

Safe from every prying stranger,

Lies the image of your face.

When the bitter winds are blowing,

On a frosty arctic night;
Or the softly falling snow-flakes
Wrap the earth in robes of white,
In my dreams I wander with you
Where the trees are evergreen,
Linger where we roamed together
Ere the ocean rolled between.

You are not forgotten mother
Though I wandered from your side,
Though the ocean lies between us
With its ever moving tide.
You are dearer, dearer to me
Than the gold I came to seek,
If you call me, I will hasten,
Hasten, if you only speak.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at the office of any Local Agent of Dominion Lands (not sub-agent), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required in every case, except when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3 per acre. Duties—Six months residence in each of six years from date of homestead entry (including the time required to earn homestead patent) and 50 acres extra cultivation. The area of cultivation is subject to reduction in case of rough, scrubby or stony land after report by Homestead Inspector on application for patent.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

Misers and Cranks

A strange thing about the miser is the fact that he always desires to have a great amount of ready cash always on hand.

A certain peer of England one day asked a companion nurse to go to town and cash a check for him at the Bank of England.

To the amazement of the nurse, the check which he handed her was made out for \$500,000. The old man asked her to be sure and get one note for the whole amount.

The check was presented, and the bank, having satisfied itself that the transaction was O.K., suggested that a clerk be sent to hand over the note in person to the peer.

After having done this, the clerk told the peer that only three such notes were in existence. "One," he said, "we have at the bank; another I have just surrendered to your lordship, and of the third we have been unable to find any trace."

"In that I may be of service to you," said the old lord, and, going to a chest, he unlocked a secret drawer and took the missing note from its place of long concealment.

SHE HAS THE VERY BEST OF REASONS

WHY THIS MANITOBA LADY RECOMMENDS DODD'S KIDNEY PILLS

Mrs. Bourbonnier Had Many Troubles, all of which Were Caused by Sick Kidneys, and She Found a Simple and Complete Cure.

St. Rose du Lac, Manitoba.—(Special)—Mrs. D. J. Bourbonnier, an estimable lady of this place, is losing no opportunity to praise Dodd's Kidney Pills to her friends. And she has a reason. Here it is in her own words.

"I suffered very much from my kidneys," Mrs. Bourbonnier says. "I was tired and nervous, my appetite was uncertain and my memory was failing. I had heart flutterings, my back was sore and I was troubled with headaches. Rheumatism was finally added to my sufferings and I was in a bad way indeed."

"I tried one medicine, but it did me no good, and then I was advised to try Dodd's Kidney Pills. I am very glad that I did, for now after taking four boxes I am a well woman again."

Dodd's Kidney Pills cured Mrs. Bourbonnier because all her troubles came from sick kidneys. Sick kidneys cannot do their work of straining the impurities out of the blood, and the result is sickness, depression and lassitude all over the body. Dodd's Kidney Pills cured the kidneys; the purified blood did the rest.

Settled

Howard—I heard your daughter is going to marry an English nobleman. Is it all settled?

Coward—Yes; every cent she had.

Minard's Liniment Co.

Gentlemen—I had my leg badly hurt, the pain was very severe and a large swelling came above the knee. I expected it would be serious—I rubbed it with MINARD'S LINIMENT, which stopped the pain and reduced the swelling very quickly.

I cannot speak too highly of MINARD'S LINIMENT.

AMOS T. SMITH.

Port Hood Island.

Willie—Pa, why was Adam created first?

Pa.—To give him a chance to say something, my son.

SHILOH

quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

Old Lady (to seedy-looking library boy)—Have you got "Epicurus?"
Boy—No, thank you, mum; it's only a bad cold and a sore throat.

After 10 Years of Asthma Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and this is but one cure among many. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is earning it today, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

Seaplane Lifeboats

The British admiralty has decided that all seaplanes used by naval airmen shall carry a miniature lifeboat suspended underneath the body of the machine. The boats are to be built of cedar, equipped with two oars, a mast, and sail, and weigh only 30 pounds.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. First application gives relief. 50c.

"I am sorry to learn your mother is ill," said the sympathizing teacher to the little girl who had come in late.

"Is she sick abed?"
"Not quite," replied the truthful child. "She's just sick 'a-sofa."—Chicago Tribune.

Nerviline Ends Neuralgia, Brings Relief Instantly

No Remedy Like Old "Nerviline" to Cure Pain or Soreness

That terrible ache—how you fairly reel with it—that stabbing, burning neuralgia—what misery it causes. Never mind, you don't have to suffer—use Nerviline, it's a sure cure. Not an experiment, because nearly forty years of wonderful success has made a name for Nerviline among the people of many different nations. "There is nothing speedier to end Neuralgia headache than old-time 'Nerviline,'" writes Mr. G. C. Dalglish, from Evanston. "It is so powerful and penetrating that it seems to eat up any pain in a minute. My family couldn't get along without Nerviline. We always keep the 50c. family size bottle handy on the shelf, and use it to end chest colds, sore throat, coughs, earache, toothache and pain in the back. My wife swears by Nerviline. For cramps its effect is astonishing and we believe it is better and speedier than any other household family remedy."

Our Language

"If that mining stock goes up I shall make a lot of money."
"But if the mine goes up you won't."

SUFFERED 20 YEARS

With Kidney Trouble, Cured by Gin Pills

Mr. Daniel F. Fraser of Bridgeville, N.S., says about GIN PILLS: "For twenty years I have been troubled with Kidney and Bladder Disease, and have been treated by many doctors but found little relief. I had given up all hope of getting cured when I tried GIN PILLS. Now, I can say with a happy heart, that I am cured after using only four boxes of GIN PILLS. 50c a box, 6 for \$2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Toronto.

Wrong Idea

Relative—He says he took the money intending to put it back!
The Boss—Ignorance of the first principles of high finance is no excuse!

Painting Rocks With Oatmeal

In the Zoological Gardens in London they have just finished building a series of concrete hills and terraces upon which wild animals will roam at large under conditions as nearly natural as possible. These hills and terraces have been painted with a mixture of oat meal mush and bone-meal, the object being to add phosphate to the lime of the concrete, phosphates being essential to the growth of moss and lichens. It is believed that this coating will capture the spores of mosses and lichens and enable them to grow, thus making the surface of the rocks green and more natural in appearance than the bare concrete.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unclean stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear all worms from the system.

Among the curious taxes imposed in Germany on various objects are those on baby carriages, where the amount is forty cents each, and \$1.50 tax on eared nightgales, of which there have not been any for many years, and tourists for whom the hotelkeeper is taxed two and one-half cents, which is added to the bill.

Louise—She says her husband is in clover.
Laura—Dear me I always thought it was wheat.

A Good Corn Sheller

Roots out any kind of a corn, hard, soft or bleeding; cures it without pain, acts at night while you sleep—its name is Putnam's Painless Corn Extractor, the only painless remedy that acts in twenty-four hours. Putnam's Painless Corn and Wart Extractor is sure and safe, price 25 cents.

Hence the B's

"Why do you sign your name J. John B. B. Bronson?" asked Hawkins.
"Because that is my name," said Bronson. "I was christened by a minister who stuttered."

Everybody

feels better when Liver and Bowels are normal. Keep yours toned up with

Abbey's Effer-Salt

25c and 60c at all Druggists and Stores. Take Abbey Vita Tablets for Sick Nerves.

A Bad Breaking Out

"Do you believe that love is a sort of sickness, as some doctors say?"
"Well, yes—something of a rash nature."

Na-Dru-Co Laxatives

are different in that they do not gripe, purge nor cause nausea, nor does continued use lessen their effectiveness. You can always depend on them.

25c. a box at your Druggist's.

National Drug and Chemical Co. of Canada, Limited.

Bix—What would you do if you were worth a million dollars?
Dix—The tax assessor, if I could. —Philadelphia Ledger.

Minard's Liniment for sale everywhere.

British manufacturers supply 90 per cent. of the cycles imported into Japan.

Nerves in Terrible Condition Would fall to Floor from sheer Exhaustion

"Your Medicine Helped When Doctors Failed"

Mrs. Edwin Martin, Ayer's Cliff, Que., writes:—"Before I began taking Nerve Food I was in a terrible condition, dizzy spells came over me, and I would fall to the floor, and I could not as much as sweep the floor without fainting unless they took me out in the air. Now I can wash and work a lot, and your Medicine helped me when the Doctors failed. I felt as though it was a God-send to me.

I hope you will use my name wherever you like so that if there are any others suffering as I have done, they may be benefited by using your Medicine for it will do all it claims to do. I think it is the best of Medicines. Dr. Chase's Ointment is the best that can be had for Piles."

Restores Wasted Nerves

Few people realize what an important part the nerves play in the condition of the health, and many doctors feel helpless when the nerves go wrong—because they do not understand diseases of the nerves or their treatment.

If you read the letters which appear in this paper almost daily from people who have been rescued from discouraging and distressing nervous diseases by use of Dr. Chase's Nerve Food, you will soon believe in the efficiency of this treatment.

When headaches, sleeplessness, irritability and nervousness make your life miserable, be warned of the approach of nervous prostration, paralysis and locomotor ataxia, and restore the feeble, starved nerves by using Dr. Chase's Nerve Food. No treatment is so certain to benefit you. 50 cents a box, 6 for \$2.50. All dealers or Edmanson, Bates & Co., Limited, Toronto. Write for booklet.

Ball Club Organized

The meeting held on Friday night last to discuss baseball matters for this season and to organize was well attended, and the prospects are that Didsbury will surely be "on the map" in amateur baseball circles this summer with Tommy Stark as manager of the team.

The committee on finance appointed at a former meeting reported a successful canvas of the town and work will now be commenced in getting the team together.

The grounds committee will interview the football club to see if arrangements can be made with that club for the use of their grounds east of the railway tracks for the season.

The election of officers then took place and resulted as follows:

Hon. President, J. E. Stauffer, M. L. A.; President, W. G. Liesemer; Vice-President, J. R. Shaw; Sec.-Treasurer, J. Pirie; Manager, Tom Stark. Grounds committee—J. McGhee, W. Scheidt and Bob Schrader.

WANTED—Stock to pasture. Also mares to pasture and breed to registered Imported Shire Stallion. Good pasture, running water. Phone W. M. Hodges, Westcott.

FOR SALE—Baby carriage, in good shape. Apply at Pioneer Office.

Oil Excitement in Didsbury

The oil excitement which has been such a big feature in Calgary for the last few days struck Didsbury on Monday and since then bankers, lawyers, tinkermen, tailors, and even the babies have been ransacking their purses for their last copper to invest it in oil shares. Yes, it's some excitement all right, and the poor fellow (like the editor) who has not a few dollars to put into some of the many golden opportunities is looked upon commiseratingly by the future millionaires. Just the same there is hardly any question but what the Dingman outfit has struck good oil, and others are also in a good way to find the golden liquid but it would be a wise move on the part of would-be investors in oil stocks to get advice from someone who they think should know before they invest any very large amount in some of the concerns that are doing such big advertising.

ANOTHER SHIPMENT of \$1.00 Horseshoe Gauntlets and Gloves. J. V. Berscht.

High Cost of Living

A report from Ottawa says that so far as the evidence taken up to date in the high cost of living inquiry is concerned, lack of production would appear to be the main operating factor in the much-complained of situation. Evidence is being taken in private by the commissioners, and half a dozen experts on food production have been heard.

The effect of the testimony up to date is that the growth of the rural population, and consequently of agricultural production, has not kept pace at all with the increase in urban population. The result is that in several lines where Canada used to be an extensive exporter it now is an importer. The witnesses so far heard include J. A. Ruddick, cold storage commissioner; T. R. Arkell, assistant live stock commissioner; W. A. Brown, poultry specialist; and R. S. Hamar, a live stock man.

After concluding the taking of evidence in Ottawa, the board will decide if it is necessary to go outside. This action seems improbable but a number
